THE POWER OF "10"
Membership Revitalization

The Power of "10" Program was presented by the State Deputy of Georgia during the 2009 Supreme Convention in August. The program goal is to have each council divide its membership into groupings of 10 (50 members=5 groups, etc.). Each group has a designated "Captain". At the beginning of each fraternal year, the Captains meet and select members from the council to be members of their group or team.

The Captain contacts each team member to let them know they are on his team, and encourage them to participate as a team member.

During the fraternal year, the teams compete with each other in **Membership Recruitment and Membership Retention**. Most importantly, the captain makes bi-monthly contact with every member of his team in order to encourage active participation and foster membership retention.

This program (more details are available in a flyer which can be provided) has proven itself in the state of Georgia by fostering active participation in council activities and reducing withdrawals and suspensions.

The March BLITZ is just around the corner!

**State Membership Program,
2nd Half**
